

./01-requirements/DOC-01-PRD.md

DOC-01: Product Requirements Document (PRD)

Version: 1.0 | **Status:** APPROVED | **Date:** 2026-08-27 **Purpose:** Define the product vision, scope, and target market. **Owner:** Product Manager

Executive Summary

Universal Business Operations SaaS is a production-ready, multi-tenant SaaS foundation that provides a core platform for businesses across different industries (Jute Mills, Textile Mills, Garments, Warehouses, Manufacturing, Trading, SMEs).

Problem Statement & Goals

- **Problem:** Repetitive creation of foundational features (Auth, RBAC, Tenant Management).
- **Goal:** Build a reusable, modular, secure multi-tenant SaaS platform.
- **Non-Goals:** E-commerce, POS, LMS in the MVP phase.

Product Scope

- **MVP:** Auth, Organization Management, Users, Roles, Permissions, Dashboard, Notifications, Files, Audit Logs, Settings.
- **Post-MVP:** Inventory, Warehouse, Purchase, Sales, Production, Shipment, Reports.
- **Future Scope:** SaaS Billing, Payment Gateway, 2FA, API Keys, Webhooks.

User Types

1. **Platform Admin:** SaaS provider internal users.
2. **Tenant User:** Customer organization users (Owner, Admin, Manager, Staff, Viewer).

Success Metrics

- Fast initial dashboard load.
- Seamless developer setup.
- Error-free tenant isolation.
