DOC-15: SaaS Subscription, Billing & Monetization

Version: 1.0 | **Status:** APPROVED | **Date:** 2026-08-27 **Purpose:** Define subscription lifecycle and billing integrations. **Owner:** Product Manager

[!WARNING] FUTURE SCOPE — DO NOT IMPLEMENT IN CURRENT MVP.

Monetization Model

- Configurable Subscription Plans (Free Trial, Basic, Premium, Enterprise).
- Feature Limits (e.g., max users, max warehouses, storage limits).

Billing Lifecycle

- **States:** TRIAL -> ACTIVE -> SUSPENDED -> ARCHIVED.
- **Features:** Grace periods, Upgrade/Downgrade proration, Cancellation.
- **Invoices & Tracking:** Automatic generation, usage limits enforcement.

Payment Provider Abstraction

- Must not hardcode Stripe or PayPal logic into core business operations. Use a Provider Abstraction pattern.
- Rely on Webhooks for asynchronous billing state updates.
