DOC-17: Reporting & Analytics Specification

Version: 1.0 | **Status:** APPROVED | **Date:** 2026-08-27 **Purpose:** Reporting engine and export requirements.

Owner: Product Manager

Reporting Principles

- **Data Isolation:** All reports MUST strictly adhere to tenant boundaries (`organization_id`).
- **Permissions:** Reporting endpoints must enforce RBAC (`reports.view` or specific module export permissions).

Required Reports (Post-MVP)

- **Inventory:** Stock overview, low stock alerts, adjustments history.
- **Transactions:** Purchase orders, Sales tracking, Shipment logs.
- **Production:** Output metrics, raw material consumption.

Capabilities

- **Filtering:** By date range, status, category, role, organization.
- **Exports:** CSV, Excel, PDF generation (delegated to background jobs if data is large).
- **Scheduled Reports (Future):** Automated delivery via email.
